

Call for letters of interest to be our 2023 Washington GIS Conference Event Coordinator

WAGISA's annual Washington GIS Conference is a well-established annual event attended by an average of 300 professionals and students in the geospatial industry.

This is a fantastic opportunity for a GIS professional to network and make meaningful connections among leading professionals in our community or an opportunity for a project manager or event coordinator to grow their resume.

The primary role of the conference coordinator is to work with all the conference subcommittee leads and the WAGISA Board Conference Liaison to facilitate collaborative decisions and logistics for the 2023 Washington GIS Conference.

Conference Coordinator contract and scope of work can be downloaded here:

[Conference Coordinator Contract](#)

We will be accepting letters of interest until January 20th.

If you are interested in being considered for the Conference Coordinator position please send a letter of interest and CV to:
